I have been in the field of Animation for over seven years, currently working at **Weta Digital** in **New Zealand** since 2015. With great opportunities to learn and work with few of the best in this field, I contributed high quality work for Hollywood features like **the BFG, Life of Pi, Alvin and the Chipmunks** and several others mainly at **Rhythm & Hues** and **Weta Digital**, and learnt a great deal more.

I can handle technically challenging work creatively, with a deep understanding of aesthetic and traditional concepts, hence smoothly adapt to any pipeline or work atmosphere and focus on delivering the best performance possible, **respecting the deadlines**. Throughout the journey along with intense focus on subject matter, I progressed into a good team player and a humble co-worker. I recognize what it takes to build an effective team with good work culture and ethics.

Thanks to **R&H**, my foundation was built on being versatile with opportunities to explore the diversity of animation from **cartoons to creatures**. The art of Animation inspires and excites me as it has the ability to explore different worlds through the characters we animate. Each project is a magical experience with its own flavor of originality and mystery that is truly motivational and brings the best out of me.

I am determined to take my animation skills and expertise to the next level by being a part of your group, creating and discovering great new things. I believe I would be a good addition to your team and my contributions invaluable.

Thank you for your precious time to go through my profile.

Best,
Sravan Kumar Nunna
