

Dear hiring representative,

It is my pleasure to recommend Sravan Kumar Nunna; the exceptional skills and work ethic that he demonstrated as an animator at Rhythm And Hues would make him a valuable addition to any company.

I knew of Sravan through fellow supervisors while working on various high-level projects like “Life Of Pi” at R+H and worked with him personally on “Percy Jackson: Sea Of Monsters.” Sravan’s reputation as a diligent and talented animator preceded him and he lived up to this reputation, exceeding expectations on several levels.

Sravan distinguished himself by consistently producing exceptional animation but also proved to be a superior communicator; he was quick to ask for clarification if needed but also able to work independently. His attitude was unmatched on a project that proved to be full of challenges. With his professional, genuine demeanor, strong love and knowledge of his craft and potential to grow as a leader, I believe Sravan would be an extremely positive asset to any animation team.

If I can be of any further assistance or provide you with any information, please do not hesitate to contact me.

Yours Sincerely,

Scott Claus
